

LaRC SAFETY HIGHLIGHTS

April 10, 2000

- 171 Days without a civil servant experiencing a Lost Time Injury (Record 251 days in 1987)

- OSHA Lost Time Case is defined as a work-related illness or injury resulting in lost workdays. OSHA Recordable Incident is defined as a work-related illness or injury requiring more than first aid treatment, not resulting in lost work days.
- No first aid cases involving civil servants were reported during the past week.
- LaRC Safety Policy - All individuals at LaRC shall abide by the Center's safety policies and procedures. No job is so important that it cannot be performed in a safe manner. Employees have the right to refuse work they feel is inherently unsafe and are required to work with their management in determining a safe way to perform the work.
- Facility Safety Head/Facility Coordinator (Mandatory) Training was conducted on April 5, 2000, with only 83 of the 282 Facility Coordinators (FC's) and Facility Safety Heads (FSH's) in attendance. Another training session has been scheduled for April 18, 2000, at 9:00 a.m. in the Pearl Young Theater. Managers should remind FC's and FSH's within their organizations of this required training. (Contact Janet Edmondson, 49225)
- Crane Training to be conducted on Tuesday, April 18, 2000, in Building 1162, Room 122, 8:00-10:00 a.m. (Contact Butch Jones, 48743)
- Safety Channel 11 Video Topics – April 10-14, 2000 – Ergonomics, Heat Stress, Material Safety Data Sheets, Electricity, Lockout/Tagout, Safety Rigging, Office Safety, Forklift Safety and Accident Causes and Prevention. (Contact Butch Jones, 48743)
